It is said that the damage done to the railroad between Leeper and Poplar Bluff in the recent washouts amounted to at least, \$100,000. The damage last August caused an expenditure of \$85,000. The flood week before last washed that all away and then some.

O. W. Ramsey, of Bismarck, brought his automobile down here last Wednesday and left it with Chas. J. Newman to be painted. Mr. Ramsey is a candidate for the Republican nomination for Congress in this district and paid some attention to his fences while here.

Wanted—A good girl for general housework to go to St. Louis in family of 2—must do washing and ironing and assist with cooking. A good home for the right girl. For further information address, Mrs. Neal, 3552 Lafayette Ave., St. Louis, or Mrs. Dr. Trauer-nicht, Ironton, Mo.

When Main street was rebuilt a year or more ago some people in the north end of town protested when the contractor undertook to dump some big rocks in the road as a foundation and made him substitute cinders. From Rosentrotter's lively stable south rock was used. This winter there is much more mud on the street in the north end than there is in the south.

Mill Spring Correspondence in Piedmont Banner: "The river lacked three and one half feet being as high as it was in August. The citizens received quite a scare Sunday after getting word from above that it would be six feet higher than in August. The water was backing up in town at dark but began to fall about eleven o'clock. It did much damage to the farms in this vicinity."

Ben Crocker and Jinks Shrum, of Graniteville, and a man by the name of Burns, whose home is at Granite Bend, were injured by a stone falling on them while at work in Sheehan's quarry at Graniteville last Friday afternoon. Crocker's injuries were quite serious; one of his legs and an arm was crushed, his head was hurt, internal injuries received. It is feared he cannot recover. The injuries of the other two men were not so serious.

The following from Tuesday's St. Louis Republic is of interest to valley readers: "The engagement of Miss Rebecca Wick and William J. Phelan was announced yesterday afternoon, when Miss Effie Goodwin of Washington Boulevard entertained at bridge. Miss Wick, who is a daughter of Dr. and Mrs. James Warren Wick of 4415 Morgan street, is a graduate of Lenox Hall. She has studied voices in New York and Pittsburgh. Mr. Phelan is a graduate of the St. Louis University."

J. C. Beard has accepted a position with the Strother Lbr. Co. and began work there the first of the week. Mr. Strother will remain with the company but will give the larger part of his time to contract work, estimating and drawing plans. The volume of business has grown so large that one man cannot handle the work, especially as a full line of machinery and other lines have been added. The addition of Mr. Beard to the company will add strength and efficiency.—Fredericktown Democrat-News.

We have experienced long continued rains and high water in most every month of the year, but there was more rain fell here the latter part of last week and the river was higher at this place Sunday than was ever known before, within our memory, during the month of January. The river was almost as high at this place as it was last August, when the water was as high as ever known. It is certain that much damage was done to farms in the bottoms and smaller valleys, where, in most instances the water extended from hill to hill—Centerville Outlook.

Our fellow townsman, Mr. Fred Kindell, Sr., has a nephew in the British army who is distinguishing himself in the terrible conflict now going on in Europe. From an English paper which Mr. Kindell shows us we print the following: "Lieutenant F. P. Kindell, of the 8th London (Howitzer) Brigade, R. F. A., has been mentioned in dispatches by Sir John French for gallant and distinguished service in the field. We understand that Lieut. Kindell got his guns safely away from a building in a burning village which was being heavily shelled by the Germans. He has also patented a new "range-finder," which is now being used by the front, and which is highly spoken of by those qualified to judge."

Hutchinson, Kansas, News of February 10th: "This morning at ten-thirty o'clock occurred the marriage of Mrs. Dora Mayfield and Mr. F. C. Kath, the ceremony being solemnized by Rev. J. W. Abel, at the home of the sister and brother-in-law of the bride, Mr. and Mrs. F. W. Cooter. It was a very quiet affair, and was witnessed by only a few of the intimate friends and relatives. Following the ceremony a wedding breakfast was served. Mrs. Kath has lived here all her life and has many friends and Mr. Kath is cashier of the State Exchange Bank. Mr. and Mrs. Kath have gone to Kansas City, Mo., for a few days' stay and on their return will reside in their new home on the Crescent Park drive. The guests from out of town for the wedding were Mr. and Mrs. Herbert Kath, of Potwin, Mr. and Mrs. L. E. Waite, of Dodge City, and Mr. and Mrs. Frank Larabee of Stafford."

## From Near Arcadia Heights.

Since our last communication from this point there have been but few changes in the general status of things. Mr. and Mrs. Oscar Souner, who came here last March from Pittsburg, Kansas, left here a few days ago for their old home in Pittsburg. It is said that they spent while here between \$800 and \$1000, and it is certain that they made considerably less than \$100. Mr. Souner was a good neighbor (the same may be said of his wife) and we very much regret that he has gone. We, however, wish them success and a long life, replete with happiness.

The last freshet which we had did considerable damage to farms out here; and fences were washed away, and the land in many places was badly washed.

After two months of rain, sleet, snow, and mud, it is to be hoped that the winter will soon release his grip, and that Spring with all her beauty and grandeur, will soon greet us.

It is reported (reliable too) that the depot at Iron Mountain; an operator will be put in charge the 15th. It is said that the depot at Middlebrook, and the work formerly done there will be done in the future at Iron Mountain. This change will be quite a help to the Bellevue people, as there is a great deal of live stock shipped from that country, and an operator in charge of the depot will greatly facilitate business.

Miss Mary Williams, daughter of R. Williams, Iron Mountain, was operated on, in St. Louis last week, for appendicitis. It is said she will be able to return to her home in Iron Mountain next week.

The McKinney Brothers unloaded another car load of young cattle at Iron Mountain last week, and drove them to their farm in Bellevue. The cattle were purchased in St. Louis.

Mr. and Mrs. Swearington this week will go to St. Louis, where Mr. S. has employment. It is very much to be regretted that there is practically no employment in this locality, and that so many of our best citizens are forced to go elsewhere for employment for themselves and families.

We are glad to learn that Hon. W. R. Edgar is very much better, and we hope he will soon fully recover. It is reported that those who are prospecting for lead at Irondale are very much elated over the prospects. It is thought that lead will be found almost equal to that at Flat River.

John Patterson has been confined to bed for several days, suffering from a severe attack of tonsillitis. With much regret, he has been compelled to miss a few days from school.

Glen Smith, of Bellevue, was in Ironton Thursday. Mr. S. says that the recent freshet did much damage in that country.

H. L. Bell, of Bellevue, was seen by the writer in Iron Mountain last Thursday afternoon. P.

## Des Arc Items.

I was down on the Belmont Railroad last week. Lots of water, but has fallen very much in the last few days. At Delta it was 3 to 4 feet in the houses. I did not leave the main line as all the little branch roads were under water. Commerce, Morehouse and Vandover were all under water. They are running two gravel trains. Doc Sink, the Belmont Road Master, has charge of all construction work. He is a Des Arc boy and deserves much credit for his energy. The wheat crop has suffered very much being under water so long. The Belmont passenger only runs to Charleston. There are thousands of bushels of corn there waiting for cars. Some of it has no shelter, piled up with a tarpaulin over it. Corn is worth 70 cents a bushel. The Sikeston mills are selling flour at \$7.00 a barrel. I was at Annapolis and Sabala Saturday. They feed well and everything is kept clean. Chas. E. Bolch is the busiest man I know, running his store, the tie contract and looking after the drills.

Several cars of hogs were shipped from here last week by Dr. Myers, A. Costner and E. F. Farris. F. Farris, Lumber business has been very dull on account of high water. John Reed is buying hickory poles to be manufactured into pipes. He is getting several car loads.

Three companies are buying ties here now. I see the Ruth Lumber Company of Poplar Bluff has organized with a capital of \$12,000. Incorporators, W. E. Morrison, H. I. Ruth, Jr., and George W. Knoll, to own and operate timber lands and saw mills and manufacture and sell lumber.

Mr. Roy Simpson, who is stationed at Great Lakes, Ill., and is serving as a sailor boy, was here on a furlough last week to visit his aunt, Mrs. John Semands, and other relatives.

Among our citizens who were in Ironton last week were: F. F. Farris, W. T. Stevenson, John Reed, Wm. Walcott, W. G. Skingley, Grover Hinkle, James Maddock and Fred Lewis. John Johnson has returned home from Webb City, where he has been working in the mines.

J. L. Strader accompanied his grandchildren to their home at Gads Hill Wednesday.

C. S. Fitz from Poplar Bluff was in town last week. He informed us of the death of S. Warren, a popular traveling man, who made his home in Poplar Bluff. He has suffered for several months with Bright's disease. He was a member of the Elk's Lodge and they took charge of the body. His remains were shipped to St. Louis for cremation at his request.

H. G. Berryman, after a visit with his mother here, has returned to Tyler, Texas.

Mrs. E. W. Fitz and little daughter, Maxine, have returned to Kennett, Ark.

Miss Jennie Selinger spent Sunday with her parents at Chloride.

Miss Ruby White spent part of last week with her relatives at Brunot.

Miss Lora Tolleson spent Sunday with her parents at Graniteville.

Mrs. Frank Howard from Piedmont spent part of last week here with her son and family.

E. W. Graves was in Greenville last week on business.

Gilbert Wallis, John Ruble and Elmer Lovelace went to Poplar Bluff Saturday.

Jesse Jackson spent Sunday with friends at Graniteville.

W. T. Stevenson and daughter, Miss Leona, went to Tarkenton last week. Orville Reed went to Mill Spring last week to buy hickory poles.

Miss Bessie Moody has returned to Sikeston.

Rev. K. P. Foust, the new Methodist Minister, has arrived and will fill his regular appointment on the 4th Sunday, February 20th. ISAAC.

## Annapolis News.

Lots of rain the past week and some Saturday; freezing weather Sunday. No so cold to-day.

The drills are still boring away. Some of the drills have bottomed on gravel and will be new holes. Fine mineral has been taken out but no one knows what it is, except that it is not lead.

Gus Funk will ship two cars of mine props, and then run his planer the rest of the week.

A. J. Daniel, constable, is having a number of attachment, garnishee and replevin suits on his hands. But he has run up against it on a piano in the possession of two ladies who recently moved to Des Arc. The case has been continued until March 3d.

Six replevin and attachment suits in my court.

Trains are all running through to Poplar Bluff again, but making slow time.
